## CHURCH CHATTER.

The General Conference of the M. E. Church, South, meets in Baltimore May 5.

The annual sermon to the Faculty and students of Stanford Female College will be preached on Sunday, June 5th, by Rev. J. K. Smith, of Richmond.

The fifth annual Conference of the Kentucky State Union of Epworth Leagues will be held at Lexington May 6, 7 and 8, and from present indications it will be the largest denominational gathering ever held in Kentucky.

There will be no services at the Baptist church Sunday. The pastor and a good many members will attend the dedicatory services of the Preachersville church, the sermon for which will be preached by Rev. W. P. Harvey, of Louisville.

The Quarterly Conference for this district will convene at Danville this morning. The church delegates from here are Revs. W. S. Grinstead and J. M. Matthews and Dr. C. A. Cox; the Sunday school, Mesdames J. A. Allen and S. P. Staggs.

The quarterly meeting for Stanford will be held at 7:30 Friday night, 29th, 11 A. M. Saturday and 7:30 Sunday night; at McKendree Saturday night, 30th, and Sunday morning, May 1, at 11 o'clock. Dr. W. F. Vaughan will preside at both places.

Rev. Thomas Haley, of Lakeview, Ill., awoke to find a robber in his room. Instead of shooting him he plead with the rascal not to take his property, that it was a sin. The fellow was so touched that he walked out leaving the things he had gathered up.

In complimenting his members on an increase in attendance at prayer meeting, Elder F. W. Allen said in his sermon Sunday that he will never feel that he has done his full duty until he succeeds in getting all the members who can, to attend the Wednesday night's services.

## NEWS IN THE VICINAGE.

Alex Pence, who murdered James Smith in Madison, was given bail in \$3,000.

Incendiaries destroyed the barn of R. M. Chesney at Monticello and one horse was burned.

Central University students have formed a company at Richmond and tendered their services to Gov. Bradley.

Hon. E. K. Wilson has about 80 enrolled in his company to fight the Spaniards. He says he will have 200 before he starts.—London Echo.

The Somerset Reporter says they had a cock fight on Mt. Vernon Avenue there last week and the policemen kept order throughout the battle.

John Waddle, son of Hayden Waddle, was seriously hurt by being thrown a horse. His entire left side is paralyzed from the effects.—Somerset Reporter.

The Harrodsburg Sayings says that S. C. Thompson, of Casey, was sent to the work-house for 15 days for using abusive language to a lady, after her husband had whipped him to within an inch of his life.

In two hours T. Z. Morrow, Jr., of Somerset, Commander of the Kentucky Division, Sons of Veterans, enlisted over 50 men to fight Spain. He will raise 200 volunteers and will ask that they be armed and sent to the front at once.

The Somerset Odd Fellows will celebrate the 79th anniversary of their lodge, Somerset No. 228, at the Gem Opera House there to-night. Speeches will be made, says the Reporter, by Messrs. T. M. Thatcher, O. H. Waddle, V. P. Smith and others.

Southern Baptist Convention, Norfolk, Va., May 5-12. Tickets on sale via the Queen & Crescent Route at the rate of one fare for round trip from all points on its line to Norfolk, Va., account the convention, which meets at that point May 5-12. Dates of sales, May 2nd to 6th, good to return 16 days after date of sale. The most attractive route to Norfolk is via the Queen & Crescent Route.

The National Association of American Homing Pigeon Fanciers of the United States has offered its pigeons, numbering 40,000 birds, to the secretary of the navy, for use in case of war, as a means of communication between warships at sea and the government.

U. S. gunboats captured three Spanish vessels Sunday, one of them worth \$400,000 and almost within the shadow of Morro Castle.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.—W. A. STROUD, Popponoke City, Md. For sale by CRAIG & HOCKER, Druggists.

## LANCASTER.

It has been suggested that the turn-pike raiders go out to fight Spain, as they are already drilled and organized.

George Aldridge shot at John Harris and was held by Judge Brown to answer the charge of malicious shooting at the next term of the circuit court. Both parties are colored.

The many friends of Capt. Louis Landram will be glad to learn that he has bright prospects for securing a highly honorable and lucrative position, but I am not at liberty to state the nature of the employment.

The word "if" is more in demand than any word in the English language in such expressions as—"If I were younger," or, "If I had better health," or, "If I had some one to stay with my family, I would go to war."

Senator Farris is at home, after an absence of several weeks in the interest of his house. James A. Beazley has returned from Cincinnati with his diploma from Clark's Embalming School, and is now prepared to engage in undertaking.

Gov. James B. McCreary and Hon. G. G. Gilbert are here and Hon. John B. Thompson is expected this Monday morning and a general hand-shaking and a flow of oratory will be the order of the day. It is reported that Col. T. P. Hill and Hon. R. C. Warren will also be here to make war speeches, and assist Capt. S. M. Duncan in raising his company. The drum and fife will also be heard, a number of fine horses will be on exhibition and, the rain having stopped the farmer from plowing, a large crowd will be in town to look and to listen. Hon. J. Mort Rothwell has been home for several days, but he is expected to be at home to present his claims in the race for Congress.

The nocturnal meetings of the band of patriots, to which I referred some time ago, have culminated in gatherings to raise troops to defend the honor of our flag, free Cuba, and avenge the death of our sailors who went down with the Maine. S. M. Duncan, one of our gallant young men, has been authorized to raise a company of volunteers to engage in the war with Spain. On Saturday morning flaming posters, headed "Fall In," and containing the expression, "Remember The Maine," were distributed and the work of enlisting began. It is understood that John M. Farra, G. B. Swinebroad and Claude Wherritt will be lieutenants, the number to be enrolled being 100. On Saturday night the Concert Band played in the court-house and eloquent speeches were made by Messrs. L. F. Hubble, R. H. Tomlinson, P. W. Spencer, Letcher Owsley and G. B. Swinebroad. It being boldly asserted that 1,000 Spanish lives must be given for each sailor that went down with the Maine and that Morro Castle must be leveled to the earth and a monument to the Maine reared on the spot. About 20 have been enrolled to this writing and, to-day, Monday, being county court day, it is believed that the requisite number will be enlisted.

The Christian Endeavor Convention was well attended, our people did all in their power to entertain visitors and a pleasant and profitable session closed Sunday night. I am indebted to Miss Alice W. Hudson, the competent president of the C. E., in this city, for notes of the different meetings. There were 50 delegates from Boyle county, 18 from Mercer and 15 from Lincoln. The following officers were elected for the ensuing year: President, J. H. Allen, Harrodsburg; Corresponding Secretary, Miss Margaret Allen, Harrodsburg; Recording Secretary, Miss Nannie Caldwell, Danville. The principal subjects discussed were: "Soul Winning," "Endeavor Work," "Source of All Power," "Good Citizenship" and "Tenth Legion." A sunrise prayer meeting was held at the Presbyterian church Sunday morning at 6 o'clock, which was well attended. Rev. W. O. Goodloe preached at 11 A. M. and in the afternoon a Prayer and Praise service was held, in which several took part. The convention closed Sunday evening with Consecration services and convention sermon by Rev. A. J. Arrick. An interesting feature was the State C. E. Song, the Lord's Prayer and Doxology, given in sign language by three mutes from the D. & D. Institute, of Danville. The report of the D. & D. C. E. was, also, given in sign language by their delegate, a mute.

One-half rates to Lexington, Queen & Crescent Route, May 4th to 7th, good to return until May 10th, from all points in Kentucky. These rates account meetings of the Kentucky State Epworth League and the Kentucky and West Virginia Grand Council Commercial Travelers. Ask agents for information. W. C. Rinearsen, gen'l pass'r agt., Cincinnati, O.

The Peaslee-Gault paint firm, of Louisville, has posted notices granting full salaries to all employees who enlist for service. Their positions will be given them on their return.

LINCOLN COUNTY'S FIRST VOLUNTEER.

HENRY ROWAN SAUFLEY.

The INTERIOR JOURNAL furnishes the first volunteer for Lincoln county. Mr. Saufley, who is a son of Judge and Mrs. M. C. Saufley, and has been in this office for four years, enlisted in Capt. Sam M. Duncan's Co. A., First Kentucky Volunteers, at Lancaster, Sunday, and on the advice of friends went to Frankfort yesterday to ask Gov. Bradley to commission him a lieutenant. He is just about the age of his father when he went to battle for the Lost Cause and if the son make as good soldier, his parents and this office will have reason to be proud of him. That he will do his duty fully we are satisfied, for he has proven himself a true and faithful employee; always on time and ready to do anything required of him.

The second enlistment from this county was Ashby McKee Warren, son of Hon. and Mrs. R. C. Warren, and a nephew of Gov. W. O. Bradley. He will not be 21 till next August, but he has shown himself worthy of his distinguished ancestry and will doubtless make a gallant soldier. Capt. Duncan is his uncle and he will be apt to take good care of the young man. Lincoln county is proud of him and Mr. Saufley and hopes to see their names emblazoned in the annals of fame.

## WAR VESSELS.

HOW THEY ARE DESIGNATED.

A gunboat is a vessel usually under 2,000 tons displacement, with powerful guns.

A torpedo-boat destroyer is a small vessel, the purpose of which is well described by its name.

A squadron is a detachment of vessels. A flying squadron is a detachment of swift vessels.

A transport is a vessel for carrying troops and may be of any pattern that has capacity and speed.

A cruiser is the next largest war vessel, and is usually iron-clad, though not always. It is faster than the battleship.

A battleship is the most powerful of war vessels. It carries the heaviest guns and has the thickest plates, but is not so swift.

A monitor is a small vessel with one or two revolving towers, which contains one or two cannons. It is not swift but powerful.

A torpedo boat is a small but swift vessel for shoving torpedoes against other boats. They can travel 20 to 30 miles an hour.

A ram is a small iron-clad with a steel nose that it thrusts into other vessel's business and can sink the largest vessels by punching holes in their bottoms. The Kahtahdin is the only one in the United States navy.

The U. S. battleships are named for States, the cruisers for cities, the monitors for Indian tribes, torpedo boats for naval heroes, tug boats for Indian chiefs and yachts for birds and insects. The gun boats, however, are variously named.

The Supreme Commander of the Macabees issues a proclamation to members of the order, who desire to fight Spain, guaranteeing to them and their beneficiaries the full and unqualified protection of the Order, as though they had not so engaged, anything in the Laws of the Order to the contrary notwithstanding.

About Walla Walla, Oregon, the squirrels are so plentiful that young ones are run over in the roads, and the protection of the crops demand the united efforts and hard work of the farmers to exterminate them.

Of Lincoln a tale is extant and believable that when he was informed of Stanton's referring to him as a "d-d fool," he replied: "If Stanton says so there must be something in it. He's generally right."

"Hello Stanford! Please give us J. C. McClary, the undertaker." "That you Mr. McClary?" "Well you needn't send that coffin; the old town ain't dead yet, only been sleeping."—Mt. Vernon Signal.

## MATRIMONIAL MATTERS.

Estill Green and Miss Minnie Hodges, each 17, were married at Paducah.

Mr. Thomas MacGregor denies the engagement of his daughter, Miss Chastine MacGregor, to Mr. Ernest Sprague.—Louisville Times.

We learn that Will Hester, son of the popular distiller, Henry Hester, and Miss Long, daughter of William Long, will be married to-morrow evening at 6.

W. W. Church, 21, married Mrs. Mary Matthews, 60, at Huntington, W. Va., and as the old woman has \$100,000 in her own right, we can see where he is right.

Hughes Bronston, son of Senator Charles J. Bronston, of Lexington, and Miss Edith Alexander, daughter of Banker George Alexander, of Paris, eloped to Jeffersonville, where they were married.

J. Frank Haynes, a widower of 78, was married at Bellefontaine, O., to Mrs. Ruby Wishard, 65. Their children together number 13, all are single and will live with the aged couple.

Alfred Norrell, 69, got the consent of Mrs. Bettie Gillam, 31, of Louisville, to marry him, but when he went on the street to beg for the money with which to buy the license, the humane society interfered and prevented the nuptials of the poverty stricken pair.

Shelby L. Allen and Miss Bessie Mount, both of LaGrange, were married at the Phoenix Hotel, Lexington. The bride is the handsome daughter of Hon. J. R. Mount and was postmaster at LaGrange. The groom is an employee of the railway mail service and said to be a very worthy man.

The engagement is announced of Mr. Phil C. Swing, son of Judge Peter F. Swing, of Cincinnati, and Miss Bessie Cowen, daughter of the late Judge A. T. Cowen, of Batavia, O. The wedding will take place in June.—Cincinnati Enquirer. The prospective bride is the youngest sister of Miss Mary Cowen, of the Stanford Female College Faculty.

A genuine Enoch Arden case, with improvements, comes from Floyd county. Years ago, Wm. Baker, then a young man, left his wife and went West. He never let her hear from him and after waiting a reasonable time, she dried her tears and accepted a proposal of marriage from a neighborhood suitor. They married and lived happily together till last year when husband No. 2 died and was gathered to his fathers. Recently husband No. 1 returned to the scenes of his youth, explained his sudden departure, forgave the woman for marrying again and then remarried her.

Miss Hazel Withers Reid, daughter of Mrs. Mary Withers, who frequently visits her relative, W. W. Withers, here, was married in Louisville Saturday to Harry L. Dunkinson, a member of the "Human Hearts" Company. The bride's father, Hal Reid, is at the head of the company. She was here with her mother two years ago. The Courier Journal says: The wooing was of short duration, Mr. Dunkinson having met his bride only last week when the company was playing in Cincinnati, the girl's home. She is a very pretty young woman, and Mr. Dunkinson, who is a handsome young fellow, with considerable promise as an actor, was constantly in her company as his duties would permit.

The Northern Indiana Law College at Valparaiso is the only established Law College in America which allows pupils of limited means to complete the junior year's work at home by the Chautauqua plan through direct correspondence between instructor and pupil. Then the student is entitled to enter the senior class there in Valparaiso without examination, and complete with one year's work and one year's expense and one year away from home. Kentucky already has a number of students in this College. Write for catalogue to Lewis D. Sampson, director, Valparaiso, Ind.

DANVILLE.—The VanWinkle & Price Telephone Company will be ready to put up some instruments in Danville about the first of next week, when the connection will be made with Stanford and Lancaster, by way of Hubble. The circuit court fined Junction City \$25 for permitting a bad bridge in town. J. L. Frohman & Co., of "The Globe," offer to equip free of charge, the first Boyle county man who enlists in the war against Spain.—Advocate.

Street car conductors in Washington ate onions and made themselves so offensive to passengers that the courts were appealed to and they were enjoined from eating the highly flavored and scented vegetable.

A fire destroyed an entire block at Greenville, Ky. There was no insurance on the buildings, and the loss will reach \$15,000 or \$20,000.

The society leaders of Frankfort will give a cake walk to raise funds for the monument to the Maine victims.

# THE INTERIOR JOURNAL

STANFORD, KY., - APRIL 26, 1898

W. P. WALTON.

**HON. J. B. THOMPSON,**  
Of Mercer, is a candidate for re-nomination for Congress in the Eighth Congressional District of Kentucky, subject to the action of the democratic party.

**HON. G. G. GILBERT,**  
Of Shelby County, is a candidate for Congress in the Eighth Congressional District of Kentucky, subject to the action of the democratic party.

We are authorized to announce

**HON. JAS. B. MCCREARY**  
Of Madison County, a candidate for Congress in the Eighth Congressional District of Kentucky, subject to the action of the democratic party.

OUR Thursday evening's dispatches ended with the announcement that the White Squadron, which is composed of 22 battleships, gunboats, cruisers, monitors and torpedo boats, had been ordered to sail to Cuba and blockade the entire Northern coast of that island. The order was promptly obeyed and by Friday afternoon it had been accomplished and the neutral governments of the world formally notified. There was great excitement at Havana, where the fleet was sighted, as an immediate bombardment was feared, but the same policy of procrastination and delay in order to give the enemy a chance seems to prevail there which disgusted the people with McKinley. The Spanish government made no response to the president's ultimatum, which it declined to receive from Minister Woodford and war began without a regular declaration.

When the American fleet was sighted at Morro Castle three shots were fired to warn the citizens of Havana of its approach and lights were ordered extinguished. These were the only shots fired, but the warships had to fire a number of shots before they could make the several Spanish vessels they captured have to. These captures have been principally confined to merchant ships, the report of the capture of others with soldiers being unconfirmed. The cable lines are under strict government censorship and there is difficulty in getting correct news quickly. The Spanish still affect an enthusiastic and bellicose attitude and indulge in great hurrah. They send out that there are 50,000 soldiers in Cuba impatient to greet the invaders and send them scurrying from the field. In the meantime, there is a money panic in Madrid and the rush on the banks to have notes exchanged for silver was only checked by the promise of the government to permit free coinage of the white medal.

In conformity to the authority given him by Congress, the president issued his proclamation Saturday calling for 125,000 volunteers and yesterday the governors of the various States issued calls for the organized companies, to be supplemented with additional volunteers if necessary. Cols. Castleman and Gaither were already under orders to recruit each company to its full strength of 103 men and they are doing so at a rapid rate, there being more applicants than places.

Yesterday's dailies contained the announcement that the bombardment of Havana would begin at dawn Monday and that the people were terror-stricken but later dispatches did not confirm it. Morro Castle fired at the American fleet, which is four miles away, Sunday, but the fire was not returned. Two cruisers were dispatched to find out where the Spanish fleet is and to capture Spanish ships encountered on the way. The president announces that he has received a formal answer to his ultimatum from Spain, accepting it as a declaration of war.

THE resignation of Postmaster General Gary is the first break in Mr. McKinley's cabinet. It is given out that he retired on account of bad health, but a persistent rumor comes that he did not agree with the president's policy. The resignation was accepted and Charley Emory Smith, editor of the Philadelphia Press, was immediately appointed and confirmed. Newspaper men now pretty well control the post office department, the first assistant and several others having been taken from the fourth estate. The president does well to recognize newspaper men and thereby show his gratitude to those who helped him most.

POOR Old Josiah Patterson! The House decided Friday that he had no claims on the seat held in Congress by Editor Carmack, of Memphis, and the old fellow will now go home to be heard of no more forever. His only claim lay in the fact that he fought the regular democracy in the campaigns of 1896 and 1897, but that availed him nothing. Mr. Patterson can now spend his time wishing he hadn't made such a tarnation fool of himself.

THE board of trustees of the State Reform Schools will meet at the Phoenix Hotel, Lexington, next Friday at 3 o'clock P. M., when it is hoped that final action for the immediate erection of the reformatory will be made.

GEN. WOODFORD, U. S. Minister to Spain, has demonstrated as fully his incompetence to represent a great country as Gen. Fitzhugh Lee has proved his fitness. As a diplomat he was a signal failure and when he received the president's ultimatum to deliver to Spain, he went to bed and took his own time to deliver it. The government knew by that time what was up and instead of receiving the document from him, gave him his passports and a guard to leave the country. It was only then that he got a move on himself and amid the hoots and jeers of the populace, stood not on the order of his going. In the game of diplomacy with Spain the president and his representative have disgusted the people and proved themselves most unworthy servants. The war would have been fought and won before this time, but for their inability to cope with the shrewd men of Spain.

McKINLEY owes it to the country to reorganize his cabinet, which is notoriously the most mediocre that has been selected in years. The new man, Charles Emory Smith, postmaster general, is a big improvement on his predecessor, and in time the president may be able to surround himself with competent and worthy advisers.

EXCEPT they do so to save composition to help pay for the dispatches, we can see no reason for the dailies and their country imitators to print war news in stud horse bill type. The average man is neither blind nor a fool and can read ordinary type fully as well as he can that which transforms a newspaper into a hand-bill.

THE Commercial Convention, which meets in Louisville, May 11, will have it in its power to do the State incalculable good in devising ways and means for bringing its vast resources to public notice. This section will be well represented and from all reports earnest, thoughtful men will go up from all parts of the State.

FRIENDS of Dan E. O'Sullivan will regret to know that he has sold the Louisville Sunday Critic and will go to New York to reside permanently, having secured a lucrative newspaper position there. The purchasers of the Critic are Col. R. M. Kelly and W. M. Dietzman, who will change it to a republican paper.

If there is anything more to be deplored than war, it is the possible reconvening of the Legislature, which may be necessary to make appropriations for the further equipment of the State guard. The government ought to do that, however, and relieve the State of this further cause of alarm and regret.

THE Richmond Register announces that beginning yesterday it will issue a daily paper to appear each afternoon at 5. Editor R. W. Miller has arranged for the associated press dispatches and with R. Lee Davis to cover the local field, the daily will be a creditable one. The price is 10 cents a week.

THE general impression prevails that the war will be fought and won in 60 days, but at the slow rate they are going at it, it may last for years and it may last forever.

## POLITICAL POINTS.

Judge R. J. Breckinridge declines the call of a number of Crab Orchard men to become a candidate for Congress.

Mr. Johnson, of Indiana, was a peace-at-any-price Congressman, and his constituents decided in convention that they would not have him as Congressman at any price.

Senator Edward C. Walthall, of Mississippi, died of typhoid pneumonia at Washington. He was born in Richmond, Va., in 1831 and served in the Confederate army during the civil war, rising to the rank of major general. With the exception of 14 months, from January 1894 to March 1895, he had sat continuously in the Senate since March 12, 1885.

The calm dignity and cool courage with which Gov. McCreary bore himself at Danville on Monday is an earnest that, in the future, personalities will be largely eliminated from the Congressional campaign. The governor's action made him many friends and added to his strength, which has been growing ever since his announcement.—Richmond Register.

The Louisville Tattler tells this good one on Gov. McCreary, who she says, is noted for his courtesy to the ladies: During a political campaign Mr. McCreary visited at the house of one of his constituents and as the hostess had not known of his coming, the coffee was cold. She made a thousand apologies and urged her guest to wait until she could have some hot coffee made. "No, Madame," said Mr. McCreary, "for if there is one thing I do on it is cold coffee." This put his hostess at ease at once and was just what he wished to do. But, unfortunately for him she was so anxious to have things arranged to suit his taste that during that entire visit he was served with stone-cold coffee, while the others had theirs hot; yet he had to drink the cold article with pretended gusto rather than give away his piece of courteous deception to his kindly hostess.

Torpedoes and mines are being placed in the Potomac river, below Washington to protect the capital.

The president issued a proclamation Friday notifying all nations that the Havana harbor had been blockaded by his order.

The John B. Gordon Camp, Sons of Confederates, of Atlanta, offers its services to the president of the United States to fight with the regular troops.

A cargo of horses and mules which was about to be shipped from New Orleans for the use of the Spanish army in Cuba was seized as contraband of war.

The Spanish minister of war has been authorized to call out 80,000 reserves. Three vessels loaded with troops have left Cadiz for an unknown destination.

Secretary Alger has sent an officer to Maximo Gomez, to confer with the Cuban leader with reference to securing the co-operation of his forces in the Cuban campaign.

John Jacob Astor has offered to furnish and equip a battery of artillery for service against Spain, bearing the entire expense for men, cannon, uniforms and all equipment.

William F. Cody, widely known as "Buffalo Bill," offered his services and the services of his Indians and cowboys to the government to do service as a cavalry regiment against Spain.

The Puritan, Cincinnati Machias, Nashville, Castine and Newport and the torpedo boats Footo and Winslow have been detached from Admiral Sampson's fleet to blockade Matanzas, Mariel and Cardenas.

The island of Porto Rico pays Spain this year in taxes \$4,374,874. Of which only \$650,000 is spent for the benefit of the native population. Of the 489,267 whites on the island only 96,867 can read and write.

It costs money to transport soldiers. The government does not charter cars, but pays by the man, the price running from \$30 each for points in the near West to \$27.72 from Maine and \$17.85 from Ohio points to Tampa, Fla.

The authorities in Porto Rico have taken steps to prevent the departure of refugees. Martial law is declared, and there is talk of a revolution. American citizens are in danger, as they are without protection.

The White Squadron has captured since Saturday four vessels flying the American flag, among them the Catalina, a huge liner trading between New Orleans, Havana and Spanish ports. She had a crew of 60 men and the prize is worth \$1,000,000. The Miguel Jover, another of the prizes, is worth \$150,000.

The Colonial government has published a manifesto protesting against the intervention of the United States "at the moment of establishment of the new regime and political liberty, and when Cuba, for the first time, was going to elect a Colonial Parliament, replacing Spain's sovereignty in Cuba with autonomy."

The president has issued an order against privateering and the Spanish government announces that it will not issue letters of marque for privateering, and will treat American privateers as pirates; that it will utilize numerous mercantile vessels as auxiliary fleet, and that it will exercise the right of search both by regular and auxiliary warships.

The first Spanish prize was the steamer Buena Ventura, from Pascagoula, Miss., for Rotterdam, with lumber. The Nashville fired a blank shot, which the Spaniard ignored. This was followed by a shot from a six pounder. The Buena Ventura then surrendered, with her crew of 20 men. The Nashville towed her to Key West, where the people went wild with enthusiasm.

A dynamite shell exploded under water within 200 feet of a mine destroys it. The policy of our navy in entering any harbor where mines are known or suspected to be in place, will be to launch dynamite torpedoes to each possible line of mines, blow them all up then proceed. Forragut said: "Go on; dam the torpedo!" Our officers will now more wisely say: "Destroy the torpedo with dynamite and then go on."

England declares neutrality and orders American vessels to leave her ports within 48 hours, holding that war has existed since Woodford's dismissal. This will relieve the country of any embarrassment that might grow out of Spain's contention that the capture of the Buena Ventura was a violation of international law, because it was effected before the time named in the President's ultimatum had expired.

In her declaration of war, Spain says that a neutral flag will protect all merchandise that is not contraband of war; goods of a neutral power not contraband will be respected even if carried under the enemy's flag and that for the purpose of capturing ships belonging to the enemy and confiscating goods and contraband of war, Spain will exercise the right of searching vessels on the high seas. Five days are given American vessels to get out of Spanish ports.

The war revenue bill provides for an increase of the tax on beer to \$2 a barrel, on manufactured tobacco 12c, cigars \$4 per 1,000, cigarettes \$4, and tobacco dealers will have to pay a license of \$12 to \$48. All patent medicines are to be taxed, chewing gum 1c a package, ginger ale and mineral waters 2c a pint, all checks and evidences of draft will have to be stamped and tea and coffee will have to pay 10 and 4c a pound respectively.

Cuba is 750 miles long, averages about 50 broad and contains 43,220 square miles. It is largely mountainous and hilly, but the plains are well watered and very fertile. Sugar and tobacco are its chief products, the tropical fruits and crops are largely raised. Mahogany is one of its valuable timbers. Hurricanes sometimes cause wide-spread destruction, one in 1870 killing 2,000 persons. Earthquakes are frequent. Slavery was abolished in 1886, though 65 per cent. of its population is Negroes.

The army bill passed by Congress removes technical conflicts between the regular army and the national guards. It divides the army into two parts, the regular and volunteer; the former to be maintained continuously, the latter only in times of war. Governors of States are authorized to appoint officers of the guards in their own States. The president has supreme jurisdiction over all. The regular army is to be continued at the same number as at present—28,000. The volunteer army is estimated at 12,000,000 men. A company is to consist of 84 instead of 100 men.

LAND SALE.—A. L. Denny has sold his third interest in his father's farm of 290 acres, after his mother's dower, to his brother, R. G. Denny, for \$3,500.

HEAVY rains, succeeded by cold, damp weather, tells the story since Friday till yesterday, when the sun came out and the signal service predicted fair for Tuesday.

OLD FENCE.—Prof. M. J. Brough tells us that H. P. Young has a fence made of ordinary chestnut plank that he put up in the winter of '49-'50 and that it is still in good repair and does the service intended.

BAILED OUT.—E. Hoge, the Moreland photographer, who was fined \$105 in Squire Coffey's court for disorderly conduct, was bailed out Saturday by Mr. W. C. Wolford, the West Lincoln merchant. He had been in jail 17 days.

THE Old Maid's Convention, which will convene at Walton's Opera House next Tuesday evening, 3rd, will be composed of 20 or more delegates and a house full of spectators. The latter can have their seats reserved at 50 cents. Those who take pot luck will have to pay 35 and children 25c.

IMPROVEMENTS.—Mr. J. C. Hays will begin this week to enlarge and materially improve his residence, corner Main and Mill streets. M. F. Elkin is having his house repaired and painted, while J. B. Paxton has changed the appearance of his dwelling by putting on a coat of paint.

CASHED IT.—J. W. Thompson, of Kingsville, writes regarding the forged check item in last issue: "Not long ago a young man about 17 years old called at my store and said his name was Mart Padgett. He asked me to cash a check for \$1.25, which I did, knowing the firm of Woods & Lynn by reputation."

SAYS IT'S FALSE.—Wm. Huser, of Ottenheim, came to see us Saturday to say that the report that he and Nick Young had hoisted a Spanish flag and had expressed themselves in sympathy with that effete monarchy, is a lie out of whole cloth and is of a kind that interested enemies have from time to time told on them, for merest spite.

THE CROPS.—A good deal of corn was planted during the nice weather of last week and the ground was in excellent condition. Wheat is looking finely and the promise is good for a large crop. There will be no peaches to speak of, but at this writing the prospect is that there will be a full apple crop and a fair yield of pears, plums and cherries.

HEWITT.—Charles Hewitt, who married Miss Mary Ella, daughter of J. H. Rout, died in the asylum at Lexington Friday morning after a protracted illness. Some two years ago he suffered a sunstroke and had never been himself since. He came to Rowland, where he worked for years for the L. & N. from Staunton, Va., and 11 years ago married Miss Rout. She with three children, the youngest a boy two-years-old, are left to mourn the loss of a once kind and indulgent husband and father. His remains were brought here and interred in Buffalo Cemetery Saturday afternoon, after services at the grave by Rev. S. M. Rankin.

THE treatment of Old John Sherman by the republicans show that they are indeed ungrateful. In order to carry out a diabolical plan which Hanna was to make Senator from Ohio, they made the old man resign that position with the bait of being made Secretary of State. In the Senate he could have been a harmless figure-head, but as Secretary of State his failing mind has made him thoroughly incompetent to perform the duties, and he has on more than one occasion brought the administration into ridicule. The old fellow was fired yesterday and turned out to die, after being a horse in his day and serving his country well.

TRY our 10c Jellico cooking coal. J. H. Baughman & Co.

WANTED.—To pay cash for all kinds of country produce. Hiram Powell, Gilberts Creek.

New Wall Paper of the latest spring styles. Prices made to suit the purchaser. W. B. McRoberts.

AT COST.—We will sell any article in our stock at absolute cost for this week. Take the advantage of this. Danks, the jeweler.

WORLEY.—Mrs. Worley, widow of the late Manse Worley, died yesterday morning after a protracted illness. She was a daughter of Jesse Nance and lived near Turnersville.

OWING to the cold rainy weather, the excursion train to Louisville Sunday from this place took in only a small crowd, only having 57 when it got to the city. Capt. Bob Chappell was in command.

BASE BALL.—The Hill boys, Prof. Craig's school, defeated the public school base ball team 20 to 13 Friday afternoon. The second team of the public school then met defeat at the hands of Miss Ruth Ellison's boys 11 to 10.

WHERE OH, WHERE WAS HE?—During the momentous night when the Senate and House were considering the war resolutions, Mr. Davison did not vote a single time. He was doubtless off asleep, as he is accustomed to keeping early hours. At any rate he can have space in this paper to tell the people where he was.

A LEGATEE.—Ed Wilkinson, the barber, tells us that the will of his uncle, Harvey Dean, who died at Bradfordsville, has recently been probated. It leaves \$7,000 to the Presbyterian church at Lebanon and \$1,000 to the cemetery there, and the rest of his large estate is to be divided among his nephews and nieces, who are his nearest relatives, and of which Mr. Wilkinson is one.

BRAKEMAN KILLED.—Ernest L. Painter, son of George E. Painter, of Brodhead, was run over and killed by freight train No. 52 at London Saturday night. The train left Corbin at 7 o'clock Saturday evening with Painter as one of the brakemen, but when it stopped at Pittsburg it was discovered that he was not on. The engine went back and found the body at the South end of the London yard mangled almost beyond recognition. It is supposed that he fell from the train. Painter was a splendid young man and a member of one of the best families in Rockcastle.

EATON.—After an illness of five weeks, Mr. H. C. Eaton died Sunday afternoon at 5 o'clock at the home of his brother-in-law, C. R. Coleman, aged about 40. Seven weeks ago he began hiccuping, but for nearly two weeks kept at work. He began to grow weak, however, and was compelled to take his bed, which he never left. During the entire seven weeks he only stopped hiccuping for short periods and a greater portion of the last five weeks he was unconscious. Mr. Eaton was an L. & N. freight conductor and was held in high esteem by the company. He was an unusually clever man and was popular with all classes. He was a member of the Order of Railway Conductors and held \$3,000 insurance. Besides a wife he leaves three children, whose cup of sorrow is overflowing. Only a week ago Mrs. Eaton buried her son, Odrey, a bright little fellow, and now she is made a widow. Great sympathy is felt for her and her children, the latter too young to realize their loss. At 2:30 this afternoon the funeral will be preached at the Methodist church by Rev. W. S. Grinstead, after which the Knights Templar will take charge of the remains and lay them to rest in Buffalo Cemetery. Mr. Eaton was also an Odd Fellow.

THE trial of George Rowsey for the murder of the old German, Francis Kizer in the court-house at Danville on the 18th, began Saturday and Commonwealth's Attorney J. S. Owsley, Jr., who spent Sunday at home, said that the prospect was either for a hanging or a life verdict. The defendant makes three excuses for the killing: That Kizer had abused his (Rowsey's) wife, that he had shot his horse and that when he saw him on the fatal day Kizer threw his hand into his back pocket and looked "sivigrous" at him. The proof, however, was that another German had Kizer by the hand leading him off and that the two of the five shots fired by Rowsey were in his victim's back. From all we can learn the case is one calling for the severest and most condign punishment. The pistol with which Rowsey did the murder was the one his father, Cage Rowsey, had when Frank Ellis killed him. In connection with the matter, Mr. John J. McRoberts tells us that although the elder Rowseys figured in many scrapes he never knew of their killing anybody, usually getting killed themselves in their rows. George Rowsey is the first of the family that he knows who has killed a man. Jasper Rowsey, who was taken from the jail here and hung by a mob years ago, was not accused of murder, but of wounding a man and being an all around bad character.

H. T. HARRIS found and left at this office a small box of medicine marked S. R. Walls. Owner can get it by calling at this office.

BARNEY BRIGHT, a well-known Negro, died in the Turnersville section Saturday and was buried in Buffalo Cemetery Sunday.

TWENTY beautiful maidens, under the direction of Miss Glascock, are rehearsing daily for the Old Maid's Convention, to be given at Walton's Opera House the night of the 3d.

AS usual Mr. Frank S. Davidson gave an excellent entertainment with his "Old Farmer Hopkins Co." He is a splendid comedian and is well supported, while the special scenery that he presents is superb. Unfortunately he carries no brass band, preferring to give his show in the theatre, so the crowd usually caught by the beating of the drum failed to materialize and the attendance was very light. Mr. Davidson has always given our people a good show and deserved better treatment.

A PERILOUS PERCH.—As passenger train No. 23 pulled out from here yesterday a man was discovered lying under the rear cars on the truck. Train Dispatcher W. F. Sheridan, who was on the rear platform, pulled the bell and the fellow came crawling out and made tracks down the railroad. A reporter of this paper ran him down and under the impression that he was an officer the tramp talked mighty prettily. He said that he was from Laurel county and that his name was Henry Johnson, that he had been to Baltimore "roustabouting" and that he had been fighting his way back in the way he was discovered. He said that left Parkersburg, W. Va., Sunday morning on the trucks of a fast flying Baltimore & Ohio train and got to Cincinnati that night, making the trip in the same way to Junction City last night on the Cincinnati Southern. He tramped from here, but said he didn't expect to walk any longer than a train came along.

LANCASTER COURT.—A good crowd attended court yesterday but not much trading was done. The demand for cattle was not up to a month ago. Lyon & Allen bought 15 610-pounders at 4c and sold them later at \$1 premium. Calves sold at \$18 to \$22.

## BRIEF NEWS NOTATION.

John Hadley, of LaPorte, Ind., in a fit of jealousy, shot his wife fatally and blew his own brains out.  
Charles P. Barnard, a well-to-do farmer living near Hartford, was thrown from his horse and killed.  
Ten thousand school children welcomed the Sixth and Ninth Indiana Regiments as they passed through Evansville, en route to Chicamauga.  
In a drunken fight near Albany, Clinton County, Will York split Will Roy's head open with an ax. Roy will die.

Three people were killed and several seriously injured by a tornado which passed four miles Southwest of Atlanta, Texas.

Despondency from an attack of consumption caused Richard M. Newcom, a railroad engineer to commit suicide at Henderson.

Because her husband caught her kissing the hired man, Mrs. Frank Jallissaint committed suicide at her home near New Albany.

The saloon men of Carrollton have, of their own accord, agreed not to open their places on Sunday or sell a drop of liquor to any one on that day.

Len Mitchell, a 16 year old Negro, was given 16 years in the penitentiary for burglary at Lexington. There were nine indictments against him.

A Negro, who is charged with assaulting two white girls in Todd county, had to be rushed off to jail at Bowling Green to prevent his being lynched.

Charles Bentley, an engineer employed at the Louisville Railway Power House, was caught beneath a rapidly whirling fly wheel and crushed to death.

A Paducah jury, while walking on the street, found a verdict against J. W. Perkins, charged with grand larceny, and fixed his punishment at one year in the penitentiary.

E. F. Farrington, the famous bridge engineer, who was engaged in the reconstruction of the suspension bridge at Cincinnati, was struck by an electric car and died shortly afterwards.

Mrs. James E. Pepper, of Fayette county, left home to catch a train for Cincinnati. She lost her pocket-book, containing \$1,800, and returned home to find it had been picked up by a farm hand, who kept it safely for her.

The Court of Appeals relieved Attorney General Hendrick of the disbarment order, but holds that he must pay into court the money which the lower court had ruled him upon and upon his refusal held him in contempt.

Chris. Merry, convicted of the murder of his wife, was hanged at Chicago Friday. Merry's neck was broken when the drop fell. He maintained his composure to the last. It will be remembered that he was captured in Kentucky.

The Ohio Legislature has passed a bill to establish a village of imbeciles near Columbus. The theory of the promoters is that agricultural pursuits tend to raise the standard of intelligence among imbeciles. The bill appropriates \$150,000 for the purchase of not more than 1,500 acres.

Richard Smith, aged 77 years, formerly president of the Gazette and later of the Commercial Gazette, died in Cincinnati. He resided there since 1841 and was prominent in politics and other affairs until he lost his sight a few years ago. For years he has done his newspaper writing by dictation.

Boone Spencer and his wife chose a horrible method of committing suicide. He had been in jail for several weeks at Murray on a charge of mule-stealing. His wife asked to be allowed to go into his cell to see him. Later the jailer found them clasped in each other's arms with their throats cut from ear to ear. Mrs. Spencer's head was almost severed from her body.

## FIRST NATIONAL BANK

OF STANFORD, KY.

Capital Stock \$100,000. Surplus, \$15,750

Attention of the public is called to the fact that this is the only National Bank in Stanford. Under the provisions of the National Bank Act depositors are secured not only by the capital stock, but by the stockholders' liability for an amount equal to the stock so that depositors of this institution are secured by a fund of \$200,000. Five sworn statements of the condition of the Bank are made each year to the United States Government and its assets are examined at stated times by government agents, thus securing additional and perfect safety to depositors.

This institution originally established as the Deposit Bank of Stanford in 1858, then reorganized as the National Bank of Stanford in 1863 and again reorganized as the First National Bank of Stanford in 1865, has had practically an uninterrupted existence for 33 years. It is better supplied now with facilities for transacting business promptly and liberally than ever before in its long and honorable career. Accounts of individuals, educators, firms and individuals solicited.
